## Thuraya XT-PRO

XT-PRO is the satellite handset designed for professional use while ensuring a great ease of use.

The handset has IP55 protection rating, a high standard of protection to withstand environmental agents, dusts and water jets. The degree of impact resistance, thanks to the Gorilla Glass screen, is IK05 and the battery has a long life, up to 100 hours in stand-by mode.

It is possible to create Geofencing tracking and monitoring areas, with perimeter waypoints or navigation radiuses, with automatic position communication in case of exit from the tracks.

Thuraya XT-PRO supports voice, SMS and data connectivity in GmPRS, and different positioning systems are integrated - GPS, Glonass e BeiDou - and an SOS button, essential to communicate the GPS coordinates in case of emergency.

XT-PRO is the satellite handset for those seeking for high-standards and reliability.
